Alabama Secretary of State Wes Allen Moves to Clean Voter Rolls of Noncitizens

August 13, 2024

Lee Evancho

Montgomery, AL – After taking office on January 16, 2023, Alabama Secretary of State Wes Allen quickly implemented strategies aimed at ensuring the state maintains the cleanest and most accurate voter file in the country. A key part of this effort involves identifying and addressing the presence of noncitizens on Alabama's voter rolls. Today, Secretary Allen announced that his office has identified 3,251 individuals registered to vote in Alabama who have been issued noncitizen identification numbers by the Department of Homeland Security (DHS). In response he has instructed the Boards of Registrars in all 67 counties to inactivate and take steps to remove any individuals who are not U.S. citizens.

Key Takeaways

Loss of Local Custody & Out-of-State Hosting: Local registrars do not hold physical or administrative custody of Autauga County's voter rolls; data is hosted in Omaha, Nebraska, by vendor Election Systems & Software (ES&S) at IP address 66.206.201.20.

System Overrides & Limited Access: Registrars must log into remote software where local voter removals are reportedly reversed by the system automatically. Officials lack direct access to cross-state criminal databases and cannot mandate primary proof of citizenship (e.g., birth certificates).

Legal Non-Compliance & Transparency Restrictions: High purchase costs for voter rolls and state legislation (HB 67) restricted public data access and removed Alabama from verification databases like VoteRef, conflicting with public inspection mandates under Section 8 of the National Voter Registration Act (NVRA).

Lack of Independent Auditing: The existing framework offers zero independent local auditing tools for voter roll maintenance and lacks effective post-election audit functionality to verify roll accuracy.

Federal Executive Actions & Enforcement

Executive Actions on Election Security: Federal executive actions have placed renewed focus on securing mail-in voting, mitigating electronic voting system vulnerabilities, and identifying non-citizens on state voter rolls (where Alabama was specifically cited).

DHS Data Sharing & Enforcement: The Department of Homeland Security (DHS) actively cross-referenced immigration data with state files, enabling Alabama to flag and identify 465 non-citizens who were illegally registered on state voter rolls as of July 2026.

Section 8 NVRA Mandates: Current voter list restrictions and high purchase fees directly conflict with Section 8 of the National Voter Registration Act (NVRA), which explicitly guarantees the public's legal right to inspect voter registration records.
