

List of Registered Voters

§ 17-4-33 Establishes and describes the official computerized statewide voter registration list (the single, uniform, centralized list maintained by the Secretary of State that contains the name and registration information of every legally registered voter in the state). It is expressly the official voter registration list for the conduct of all elections.

HOW DID WE GET HERE —

“When you look at the registration, and you see dead people that have voted, when you see people that are registered in two states — and that voted in two states — when you see other things, when you see illegals, people that are not citizens and they are on the registration rolls... You have illegals, you have dead people... it’s really a bad situation. It’s really bad.”

- Pres Trump, 2017

“Foreign adversaries have parts that are vital pieces in our voting machines... We know that they can change voter registration and your vote. We know it’s possible. There’s not a question. It’s not even for debate.”

- DHS Sec Mark Mullins, Jul 2026

HOW DID WE GET HERE – Elected Officials

“We also want to make sure that that vote is protected... it’s an important part of protecting the right of American citizens to vote, and it’s to ensure that the votes aren’t diluted by those who have actually no right to vote.”

- Sen Katie Britt, 2025

“Voting is the most cherished and foundational right of citizenship that only American citizens should hold. Illegal voting should not be tolerated anywhere in our nation... Congress must take its obligation to protect voting integrity seriously, whenever and wherever it is at risk...”

- Rep Barry Moore, Feb 2023

HOW DID WE GET HERE – Federal Agencies

“And the system is frankly rigged in such a way that officials don’t want [to] know. People check off a box. Nobody checks whether people are citizens or not. And nobody checks duplicates. It’s a sloppy mess in most of the United States, and we Americans deserve better.”

– Asst. AG Harmeet Dhillon,
Jul 2026

“We have evidence of how these electronic voting systems have been vulnerable to hackers for a very long time and vulnerable to exploitation to manipulate the results of the votes being cast....”

- Former DNI, Tulsi Gabbard, Apr 2025

HOW DID WE GET HERE – Secretary of State

“Since taking office more than half a million ineligible voters have been removed from our state’s voter file. Our voter file, which was **a bloated mess** on the day I took office, is now the most accurate record of eligible voters our state has ever had.”

- SoS Wes Allen, Apr 2025

“...Alabama is the gold standard for election accessibility, security, and integrity.”

- Former SoS John Merrill

“States are the leaders in regulating elections, and yet despite our best efforts to enact policies to deter and detect fraud, voter fraud continues to be a problem.”

- Alabama Attorney General Steve Marshall, Jul 2026

That thing that never happens keeps happening

- **Conecuh County:** 2022, Alleged Absentee Ballot Harvesting – AL SCOTUS ruling 2026
- **Madison County:** Aug 2023, Sitting House District 10 Representative, charged with felony voter fraud for knowingly voting as a Non-resident voter
- **Franklin County:** Sept 2024, Undocumented Guatemalan who used a stolen U.S. identity to register and vote in 2016 and 2020 elections
- **Wilcox County:** Jul 2026, Vote-buying scheme uncovered in Commissioner Election
- **Blount County:** Jan 2026, multiple felony voter fraud charges of a Canadian citizen
- **Monroe County:** Feb 2026, Ballot Harvesting during 2025 municipal election
- **Lowndes County:** Apr 2026, Used Absentee Ballots to overturn a municipal election
- **Marion County:** Mar 2026, Mexican national multiple voter fraud charges

HOW DID WE GET HERE

“You better keep asking questions because it’s the only thing that keeps us free.”

- Charlie Kirk, 2023

“Trust but verify.”

- Pres Reagan, Dec 1997

“[The American people] want to know their elections are secure and their vote counts. This isn’t controversial. We need to get this done.”

- Sen Katie Britt, Jul 2026

The graphic features a central white rectangular area with rounded corners and a thin red border. This area is set against a background of the American flag, with the blue field of stars on the left and right sides, and the red and white stripes at the bottom. The text is centered within the white area. At the top, the title 'PLEDGE OF ALLEGIANCE' is written in white, bold, serif capital letters on a dark blue banner. Below this, the pledge itself is written in a dark blue, serif font. At the bottom, 'UNITED STATES OF AMERICA' is written in white, bold, serif capital letters on another dark blue banner.

PLEDGE OF ALLEGIANCE

I PLEDGE ALLEGIANCE TO THE FLAG
OF THE UNITED STATES OF AMERICA
AND TO THE REPUBLIC FOR WHICH IT STANDS,
ONE NATION UNDER GOD, INDIVISIBLE,
WITH LIBERTY AND JUSTICE FOR ALL

UNITED STATES OF AMERICA

“The right of voting for our representatives is the primary right by which all other rights are protected.”

– Thomas Paine

The Core Points I'm making here today

- **There is a problem**
 - Coffee County voter rolls contain significant inaccuracies and are unfit for use
- **It is our Problem**
 - Citizens and elected officials of Coffee County alike.
- **We are obligated to fix it**
 - NOT just the symptoms but the underlying root cause

Maintaining Accurate Voter Rolls – It's the Law

- Title 52 USC § 20501 – Voting and Elections (b)(4) to ensure that accurate and current voter registration rolls are maintained.
- National Voter Registration Act (NVRA, 1993): Requires states to conduct a general program that makes a reasonable effort to remove the names of ineligible voters due to death or a change in residence.
- Help America Vote Act (HAVA, 2002): It reinforces accurate list maintenance and requires systems that can identify and resolve duplicates and support removal of ineligible voters.

My Focus -

- Measure the accuracy/cleanliness of our rolls using the exact requirements the Alabama Secretary of State lists

The information contained in this press release has been superseded by federal court [order](#), entered October 16, 2024, and expiring November 6, 2024.

After being sworn into office on January 16, 2023, Alabama Secretary of State Wes Allen immediately initiated strategic efforts to ensure that Alabama has the cleanest and most accurate voter file in the country. As part of this effort, Secretary Allen has identified 3,251 individuals who are registered to vote in Alabama who have been issued noncitizen identification numbers by the Department of Homeland Security. The Secretary announced today that he is instructing the Boards of Registrars in all 67 counties to immediately inactivate and initiate steps necessary to remove all individuals who are not United States Citizens.

Key Findings – Citizenship

- In Jan 2026, AL SoS provided an update to Non-Citizens on the rolls
- Utilizing DHS SAVE database, identified 186 Non-Citizens still on the voter rolls
- 4 Non-Citizens listed in Coffee County

Key Findings – Citizenship

- Jun 2026 DHS published a report listing 250,000 Non-Citizens found on voter rolls in just four state: CA, PA, NJ, NV
- Like AL, these states do not participate with VoteRef
- Report listed 10 states that used the DHS SAVE database to ID over 28,000 Non-Citizens
- AL was among those listed with 465 Non-Citizens reported as registered on state voter rolls

PREVENTING ALIEN VOTING

NATIONAL SECURITY INVESTIGATIONS: The Department of Homeland Security has initiated multiple investigations related to allegations of non-citizen voting and registration. Review of the first set of public voter files from states that have not utilized the SAVE system revealed:

OVER 250,000 NON-CITIZENS ARE ILLEGALLY REGISTERED TO VOTE IN JUST THE FOUR STATES FOR WHICH PUBLIC DATA FILES HAVE BEEN REVIEWED.

State election officials in California, Pennsylvania, New Jersey and Nevada have been notified of this serious threat to national security and DHS stands ready to support their efforts to identify and remove ineligible registrants. The investigation is expanding to include multiple additional states. In addition, DHS will support the Department of Justice's review of voter files obtained pursuant to their enforcement authority under the National Voter Registration Act of 1993 and the Help America Vote Act of 2002.

STATES THAT PROTECT FEDERAL ELECTIONS: Numerous proactive, conscientious state officials have successfully utilized free services offered by the Department of Homeland Security to assist election officials in identifying non-citizens who have registered and/or voted in their states.

In the short time that the enhanced SAVE system has been available to states, 10 have states processed their full voter lists. As of June 22, 2026, a total of 25 different states processed more than 68 million registration records through the SAVE system. DHS has enabled those states to identify over **400,000** deceased registrants and over **28,000** non-citizens who illegally registered to vote.

As demonstrated by the sample data to the right, these states are serious about ensuring that only U.S. citizens vote in US elections. DHS applauds their efforts to prevent non-citizens from registering and to remove ineligible registrants who unlawfully register.

Proactive SAVE User States		
State	Deceased	Non-Citizen
Georgia	42,776	2,549
Ohio	59,774	769
Tennessee	37,850	1,009
Texas	111,573	2,296
North Carolina	34,622	1,599
Idaho	4,228	49
Alabama	33,165	465
Missouri	40,600	1,112
Louisiana	15,231	419
Kansas	10,197	449

Several other proactive state officials have also signed Memoranda of Agreement with USCIS to utilize the SAVE system and have processed portions of their state voter rolls. Unfortunately, due to the actions of the activist Judge Sparkle Sooknunan, many of the enhancements to this service of USCIS have been suspended pending appeal. As a result, US citizens are at risk of having their votes diluted by ineligible alien voters.

UNAMBIGUOUS CONTRAST: There is an undeniable pattern emerging as DHS begins to unravel the horrific damage done by the open border policies of the Biden administration. States that have adopted alien-first policies instead of American-first policies have a disproportionate number of non-citizens on their voter rolls.

What is Residency?

- Voters must vote in the polling place of their domicile. § 17-9-10.
- A voter's domicile is the voter's "residence at a particular place accompanied by an intention to remain there permanently or for an indefinite length of time." Mitchell v. Kinney, 5 So.2d 788 (Ala. 1942).
- In other words: You have to live here to vote here

Voter Removal: NCOA and Inactivity

- This process is a slow moving train wreck: NVRA + Ala Code
- You would think if someone does a change-of-address with USPS they would be removed...not the case
- It shouldn't be hard to remove someone who no longer lives here OR fails to vote in four years....

SCOTUS Decision on Removal Process

- Justice Alito wrote in his majority decision:

“It has been estimated that **24 million** voter registrations in the United States—**about one in eight**—are either invalid or significantly inaccurate.... And about 2.75 million people are said to be registered to vote in more than one State.”

- I think that number is even higher

Key Findings – Residency

Vast majority of voters on NCOA are still on Coffee voter rolls...Don't live here

- Moved **AND** Registered at New Address. ie. Voter moved to FL and is now registered simultaneously in both FL as well as Coffee County.
- Moved **AND** Voting from New Address. Voter is not only registered now in FL but also voting in FL while still appearing on our Coffee County voter rolls.
- Moved to different Alabama county but **STILL** voting in Coffee County.
(registered in two counties simultaneously)
- Moved to different state **AND** voting in **BOTH** Coffee County and new state.
Multiple voters appear to have voted in the same election cycle in both AL and state where they moved

Key Findings – 18 years of Age

- As in other states, a person must be **18 years of age** by the date of the election in order to be eligible to vote.
- And yet...
- Multiple instances of voter history showing votes cast by voters prior to 18th birthday?

Felony Voter Disqualification Act

- In Alabama a person loses the right to vote only if convicted of a felony involving moral turpitude.
- The statute contains an exhaustive list of those specific offenses:
 - Manslaughter, Assault 1st Degree, Domestic Violence, Elder Abuse, Human Trafficking, Burglary, Forgery, Drug trafficking, etc..

Felony Voter Disqualification Act

- Any person is disqualified until they receive either:
 - A **Certificate of Eligibility to Register to Vote** (CERV): Available for most listed crimes after sentence completion + fees paid), or
 - A **full pardon**: Required for the most serious ones such as murder, rape in any degree, sexual abuse in any degree, etc.

- Incest;
- Sexual torture,

- Enticing a child to enter a vehicle

Notwithstanding, any person convicted of a sex offense involving a child, shall not be eligible for a pardon.

- Possession of obscene matter; or
- Possession with intent to distribute child pornography.

Local Problems are National Problems

“In every state, there are people on the voter rolls who don’t belong—whether they have died, moved, or registered multiple times.”

— Harmeet Dhillon, Dec 2025 X post/video

“We need to go after every single one of these violations ... I can’t talk about a lot of what we’re doing publicly, but activists and others are giving us leads. Local officials are giving us leads. And we are carefully running down each of these leads.”

— Harmeet Dhillon, Jul 2026

Local Problems are National Problems

“One person voting illegally is one too many.”

– Sec DHS Markwayne Mullin, Jul 2026

“I believe preserving the integrity of our elections is the most pressing issue before Congress.”

– Sen Tommy Tuberville, Sept 2024

President Trump during his July 2026 national address characterized the **overall system** as:

“[S]o broken and so vulnerable that no one can possibly defend it.”

Whenever the people are well informed,
they can be trusted with their own
government; that whenever things get so far
wrong as to attract their notice, they may be
relied on to set them to rights.

-- Thomas Jefferson

The Core Points

- **There is a problem**

- Coffee County voter rolls contain significant inaccuracies and are unfit for use

- **It is our Problem**

- Citizens and elected officials of Coffee County alike

- **We are obligated to fix it**

- NOT just the symptoms but the underlying root cause

CHAPTER 15

COUNTY COMMISSION

Summary of Contents:

- 15.1 Office of County Commission
- 15.2 Election Expenses
- 15.3 Precincts
- 15.4 Assigning Ballot Boxes and Voting Machines
- 15.5 Voting Equipment
- 15.6 Voter Registration Functions
- 15.7 Voting Hours

- **15.3 Precincts**

- The county commission draws precinct boundaries, designates the places in each precinct for voters to vote, and designates the number of voting machines at each voting place. The county commission alphabetically divides the voters into groups, where necessary and submits the voting information to the judge of probate. Within five days of receiving the information from the commission, the judge of probate publishes the county information regarding precinct numbers and the location of designated voting places. §§ 17-6-2, 17-6-4, and 17-6-5.

- **15.4 Assigning Ballot Boxes and Voting Machines**

- The commission, at its first regular meeting in March of each even-numbered year, meets to examine the list of registered voters to determine if the number of voters exceeds the legal limits in any of the p

- **15.5 Voting Equipment**

- The county commission purchases or leases the voting equipment a county will use. The voting system must meet requirements set by statute and must meet the standards issued by the Federal Election Commission. Voting systems are governed in part by the federal Help America Vote Act of 2002 (PL 107-252) and must be accessible for those with disabilities, including non-visual accessibility for the blind and visually impaired. § 17-2-4(c).
- Only systems which have been certified by the Alabama Electronic Voting Committee can be used in elections in Alabama. §§ 17-7-21 through 23. recincts and requires altering the precinct lines. § 17-6-3(b).

Vendor

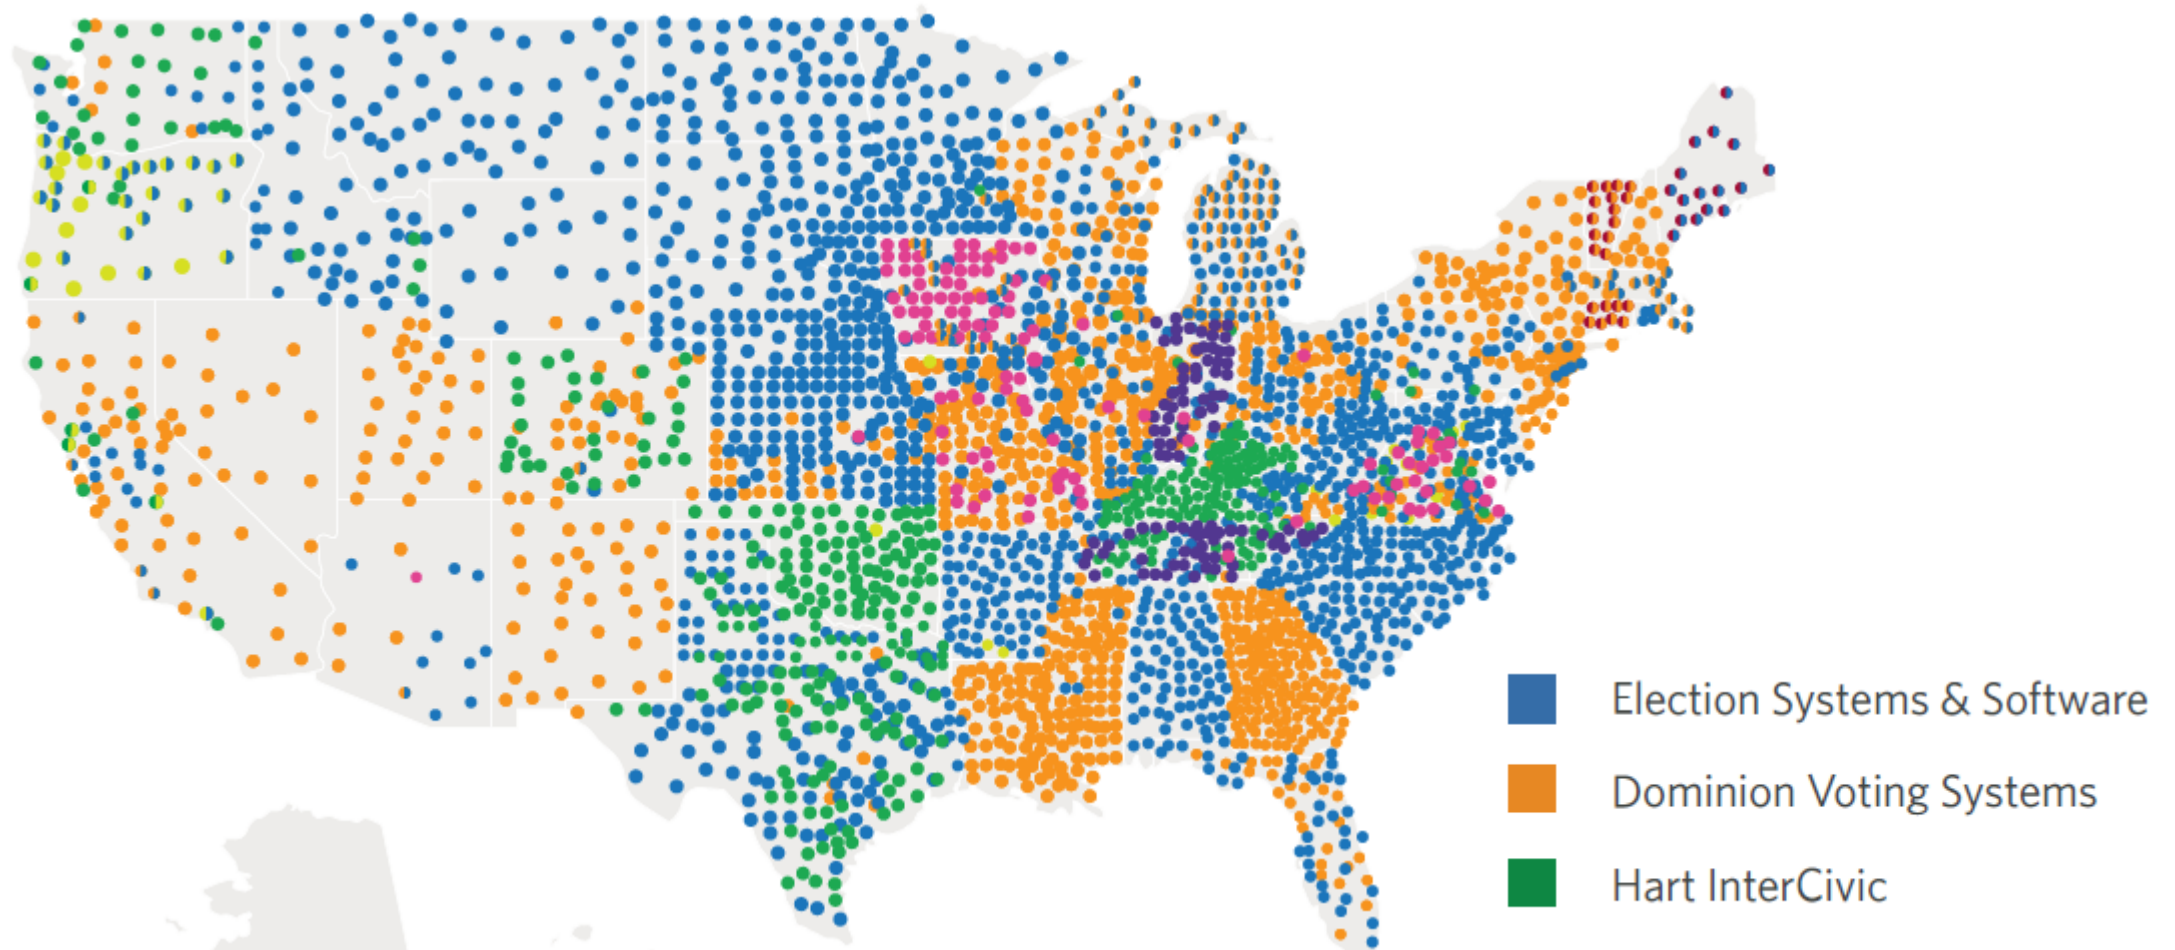

Industry Participants

- The firms in the election technology industry sell integrated voting solutions, typically including a package of hardware, software, services and support.
- The industry has a three top-tier vendors, Election Systems and Software (“ES&S”), Hart Intercivic (“Hart”) and Dominion Voting Systems (LibertyVote)

Vendor Marketplace Coverage by Percentage of Eligible Voters

Aggregated Jurisdictional Distribution of Voting Machines by Vendor

Part of the challenge in understanding the election technology industry is that it is difficult to compile even basic facts about it. The industry earns an estimated \$300 million in revenue annually (out of the estimated \$1 billion spent on election administration overall in the US). The industry is dominated by three firms that are moderate in size and neither publicly nor independently held, limiting the amount of information available in the public domain about their operations and financial performance.

An exact figure for annual industry revenue is not known with certainty. Including support costs, it is estimated the annual industry revenue could be as high as \$800 to \$900 million.

SECURE?

- 2025 Colorado federal court filing (related to Mesa County election records and forensic images preserved by former Clerk Tina Peters).The witness is a Venezuelan Smartmatic whistleblower
- He testified that Dominion's system architecture shares core elements with Smartmatic, enabling manipulation through the same methods: deliberately small log files, accessible source code, SAES data utility style tools, and remote "man in the middle" connections. He concluded that Dominion systems, built with Chinese components in a voting system designed by former Smartmatic engineers, are not secure or auditable in U.S. elections.

SECURE?

- Markwayne Mullin (DHS Secretary) election integrity briefing summary (primarily July 17, 2026, White House complex remarks following President Trump's address)
- Consequences for non-cooperation: Non-participating states will be prioritized for scrutiny of who voted. Election officials who receive information/tools but refuse to act can face fines, penalties, or (depending on severity) prison time.
- “Foreign adversaries have parts that are vital pieces in our voting machines... We know that they can change voter registration and your vote. We know it's possible. There's not a question. It's not even for debate.”

CISA REPORT ON VRDB THREAT

- Voter rolls are a target for foreign adversaries
- Hackers have attempted breach in all 50 states
- Confirmed success in 20 states
- “The real threat is what can be done with the stolen data
- Alter voter registration, address, party affiliation
